The God Virus: How Religion Infects Our Lives and Culture By Darrel Ray

Dawkins, Hitchens, Harris and Dennett opened the door to a hard nosed look at religion in our society but no one seemed to be using their concepts to explain the psychology of religion and its practical effects on people. Dr. Darrel Ray, psychologist and lifelong student of religion stepped into this gap to discuss religious infection from the inside out. How does guilt play into religious infection? Why is sexual control so important to so many religions? What causes the anxiety and neuroticism around death and dying? How does religion inject itself into so many areas of life, culture and politics? Dr. Ray explores this and much more in his book, *The God Virus: How religion infects our lives and culture*. This second generation book takes the reader several steps beyond Dawkins, et al. into the realm of the personal and emotional mechanisms that affect anyone who lives in a culture steeped in religion. He uses examples that anyone can relate to and gives real world guidance in how to deal with and respond to people who are religious among our families, friends and coworkers.

Editorial Review

Review

Darrel Ray has made a marvelous contribution to our understanding of ourselves. The description of religion as a cultural virus is not new, Darrel is the first to put the virus on a slide and pull out the microscope. The God Virus goes beyond analogy, offering a fascinating and detailed look at the wiggling, maddening virus itself how it moves, how it survives, and how and why it continues to thrive. --Dale McGowan, Author/editor, Parenting Beyond Belief and Raising Freethinkers, Harvard Humanist of the Year (2008)

For those hungering for more after reading the books written by Dawkins, Harris, Hitchens and Dennett, Dr. Darrel Ray's The God Virus is a logical and thought-provoking follow-up. By extending the metaphor of religion as a virus, the reader gets a better understanding of the incredible power religion can have on anyone's way of thinking (Dr. Ray shows that even your IQ is negatively affected!). Lest anyone think this is just a putdown of religion, it also gives excellent advice on how to live life without a God, from marriage to raising children. It's a book that non-believers will enjoy and religious readers can only dare to read. -- Hemant Mehta author of I Sold My Soul On Ebay (Waterbrook Press, 2007)

Your book is a convenient handbook on how real life Atheists can stay sane while others are freaking out with religious madness and blaming it on those that challenge the true believer's faith based system. You are most welcome to publicize my endorsement. --Edwin Kagin, National Legal Director American Atheists, Inc.

About the Author

Darrel Ray, Ed.D. is a psychologist and student of religion for over forty years. Raised in a fundamentalist home, he knows religion from the inside out. He left religion in his thirties, but continued to ask the question, "How does religion work on the mind and behavior of those it infects?" Because no other authors seemed to be answering this question, he wrote this book as a practical and theoretical guide to those who want to understand religions of all kinds and specifically how to eliminate it from our lives.

Users Review

From reader reviews:

Alyson Hardy:

The event that you get from *The God Virus: How Religion Infects Our Lives and Culture* could be the more deep you excavating the information that hide into the words the more you get thinking about reading it.
