21st Century Global Health Diplomacy By Thomas E Novotny, Ilona Kickbusch, Michaela Told

Global health diplomacy begins with a recognition that the most effective international health interventions are carried out with sensitivity to historical, political, social, economic, and cultural differences. It focuses on the interplay of globalization, economic interdependence, social justice, and the enlightened self-interests of nations. Global health diplomacy can help sustain peace and economic stability in a globalized world, but the skills necessary for this endeavour are not taught in standard health sciences curricula or in Foreign Service academies. However, they bear directly on the success of international health cooperation, be it from the global north to the global south or south-to-south cooperation. Global health diplomacy can be a critical pathway to assure good global governance and improved international relations among the great powers and between these powers and the developing world. It can be a mechanism to avert conflict and to augment health, peace, solidarity, economic progress, and multinational cooperation.

Readership: Graduate students in global health masters and PhD programs. Students doing short courses in health diplomacy.

Editorial Review

Review

"Health diplomacy is a complicated, multi-disciplinary challenge that needs both intellectual, and more importantly, practical attention from our best diplomats and public health professionals. Professors Novotny and Kickbusch have assembled such a group for this comprehensive review of all the components of this emerging field. 21st Century Health Diplomacy can serve as a valuable reference manual for students, researchers, and diplomats from across foreign policy, security, public health, history and political science disciplines." -- RADM Kenneth Bernard, MD, DTMH, Assistant Surgeon General (Ret.), Former Special Assistant to the President for Health and Security

"21st Century Global Health Diplomacy is a must read for those interested in how things now work in the complex architectures of public health, security, and foreign policy. Globalization has presented both challenges and opportunities in public health, and by better understanding the history, politics, governance issues, and trends regarding these challenges, we can embrace more effectively the opportunities now available in health diplomacy. Professors Novotny, Kickbusch, and colleagues have provided a remarkable set of readings that will be of great value to today's public health students, foreign policy scholars, and practicing health diplomats." -- Professor David L Heymann, CBE Head and Senior Fellow, Centre on Global Health Security, Chatham House, and Professor, Infectious Disease Epidemiology, London School of Hygiene and Tropical Medicine

*"'Health diplomacy' remains an awkward theme, lacking global consensus in both definition and implementation. All global health practitioners and observers are struggling with the political and economic sides of the diplomacy equation, while political leaders remain flummoxed regarding 'health' and governments' obligations to the well-being of their own citizenries, much less humanity, planet-wide. Novotny and Kickbusch's compendium of essays helps a great deal. The book reveals the facets of debate, and evolving thinking. I very much doubt we will reach any consensus on the boundaries and implementation of 'global health diplomacy' during my lifetime, but this book will help sort out many of the issues, and guide the debate." -- Laurie Garrett, Senior Fellow for Global Health at the Council on Foreign Relations, and author of *I HEARD THE SIRENS SCREAM: How Americans Responded to the 9/11 and Anthrax Attacks**

Users Review

From reader reviews:

Dennis Byrd:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each reserve has different aim as well as goal; it means that reserve has different type. Some people truly feel enjoy to spend their time for you to read a book. They are reading whatever they consider because their hobby is reading a book. Why not the person who don't like reading through a book? Sometime, man feel need book when they found difficult problem as well as exercise. Well, probably you will want this 21st Century Global Health Diplomacy.

Alfred Stevens:

Precisely why? Because this 21st Century Global Health Diplomacy is an unordinary book that the inside of the e-book waiting for you to snap it but latter it will zap you with the secret the item inside. Reading this book beside it was fantastic author who write the book in such incredible way makes the content on the inside easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you because of not hesitating having this any more or you going to regret it. This book will give you a lot of gains than the other book have such as help improving your talent and your critical thinking approach. So , still want to postpone having that book? If I have been you I will go to the guide store hurriedly.

Charles Powers:

As a student exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this 21st Century Global Health Diplomacy can make you feel more interested to read.

Raymond Langford:

A lot of people said that they feel fed up when they reading a publication. They are directly felt it when they get a half portions of the book. You can choose the particular book 21st Century Global Health Diplomacy to make your own personal reading is interesting. Your own skill of reading proficiency is developing when you such as reading. Try to choose basic book to make you enjoy to study it and mingle the impression about book and studying especially. It is to be first opinion for you to like to wide open a book and read it. Beside

that the book 21st Century Global Health Diplomacy can to be your friend when you're sense alone and confuse with the information must you're doing of the time.
