Cardiac Electrophysiology and Catheter Ablation (Oxford Specialist Handbooks in Cardiology) By Yaver Bashir, Timothy R. Betts, Kim Rajappan

Cardiac Electrophysiology and Catheter Ablation is the first handbook-sized practical training guide for medical, technical and industry personnel needing easily accessible, detailed information on the theory and practice of modern invasive investigation and treatment of cardiac arrhythmias. Highly illustrated throughout, it both simplifies and clarifies the basic electrophysiological principles of many arrhythmias, as well as providing practical advice on performing catheter ablation in patients with a variety of arrhythmias. The step-by-step guidance provided is designed to facilitate the use of the book for real-life scenarios in the catheter laboratory and to demystify this traditionally inaccessible field for the wider cardiology community.

Editorial Review

Review

The Oxford Specialist Handbook on Cardiac Electrophysiology and Catheter Ablation lends itself perfectly to the beginner, whether trainee in cardiology or an allied professional including cardiac physiologists, nurses or radiographers. However, it also provides sufficient depth and complexity to be useful on a daily basis at any level as a companion in the electrophysiology laboratory, outpatient clinic or on the wards. Cardiology News The Oxford Specialist Handbook on Cardiac Electrophysiology and Catheter Ablation lends itself perfectly to the beginner, whether trainee in cardiology or an allied professional including cardiac physiologists, nurses or radiographers. it also provides sufficient depth and complexity to be useful on a daily basis at any level as a companion in the electrophysiology laboratory, outpatient clinic or on the wards. It is a highly useful day-to-day guide. Cardiology News

About the Author

Dr Yaver Bashir is a consultant cardiologist with a special interest in all aspects of cardiac arrhythmia management, including diagnostic electrophysiology, catheter ablation and pacing/ICDs. He is active in research and teaching, and has published approximately 60 papers in peer-review journals on all aspects of cardiology, particularly arrhythmias. He is a reviewer for Heart, European Heart Journal and Journal of the American College of Cardiology.

Dr Timothy Betts qualified from Birmingham, UK in 1991 before training in cardiology in Wessex (Southampton, Bournemouth, Bath and Swindon). He completed a fellowship at Northwestern Memorial and the Children's Memorial Hospital, Chicago, USA, and was awarded a MD thesis by Southampton University in 2003. He has been a consultant at the John Radcliffe Hospital, Oxford since May 2004. Dr Kim Rajappan is a consultant cardiologist and electrophysiologist at the John Radcliffe Hospital in Oxford. He completed his general cardiology training and subspecialty training in cardiac electrophysiology and device therapy in London, predominantly at the Hammersmith Hospital and St. Bartholomew's Hospital. His research and clinical interests include all aspects of arrhythmia patient management, particularly catheter ablation of complex cardiac arrhythmias such as atrial fibrillation and ventricular tachycardia.

Users Review

From reader reviews:

Travis Wysocki:
