In Paris or Paname: Hemingway's Expatriate Nationalism (Costerus New)

By Jeffrey Herlihy

Alongside a liberating treatment of the English language, Ernest Hemingway achieved some often overlooked innovations in multicultural subject matter. In six of the seven novels published during his lifetime, the protagonist is abroad, bilingual, and bicultural-and these archetypes have significant implications for each character's sense of identity. *In Paris or Paname* interprets Hemingway's overdetermined use of foreignness as a literary device, characterizing how cultural displacement informs plot dynamics. The investigation historicizes the archetypal protagonist's process of (re)orientation through attention to his intercultural adoptions in language, alcohol consumption, sports, and betrothal rites. Herlihy situates his argument within an apposite research framework from psychological studies on migration, anthropological examinations of cultural ceremony, and literary theory on the poetics of displacement. The analysis offers groundbreaking insights on the distribution of previously overlooked structural patterns (themes, motifs, and symbols) that are present throughout Hemingway's novelistic corpus, and provides a compelling perspective on the aesthetics of the expatriate/immigrant writing process.

Jeffrey Herlihy's study, In Paris or Paname: Hemingway's Expatriate Nationalism, is the most theoretically sophisticated analysis I know that concerns multicultural themes and "foreignness" as a literary device in Hemingway's fiction.
