Editorial Review

About the Author

Richard E. White is a research entomologist at the United States National Museum in Washington and the author of articles and research papers chiefly in his special field of beetles. As an artist he is most experienced in portraying insects, but he also illustrates general biological subjects. Donald J. Borror is a professor of entomology at Ohio State University and the author of books, articles, and recordings. With Dwight M. DeLong he is the coauthor of a widely used textbook, *An Introduction to the Study of Insects*, now in its fourth edition. Dr. Borror has made several records of bird songs and insect sounds. With Richard D. Alexander he recorded *The Songs of Insects*, one of the *Sounds of Nature* disks in the Cornell Laboratory of Ornithology series. Roger Tory Peterson, one of the world's greatest naturalists, received every major award for ornithology, natural science, and conservation, as well as numerous honorary degrees, medals, and citations, including the Presidential Medal of Freedom. The Peterson Identification System has been called the greatest invention since binoculars, and the Peterson Field Guides® are credited with helping to set the stage for the environmental movement.
