Editorial Review

Review

"It's refreshing when a physician provides research to back up claims in the sometimes ephemeral field of the mind-body connection. Dr. Colbert examines humans and the multitude of illnesses that stem from wrong thought and lifestyle with a near-religious fervor that doesn't detract from the value of this audiobook. The weaving of spiritual knowledge with scientific savvy make this especially palatable. Greg Wheatley is a straightforward narrator who doesn't stumble over medical terms or the author's occasional overzealousness. In general, DEADLY EMOTIONS is an eye-opening guide to our responsibility for many of the illnesses we experience and to the possibility of creating a healthier emotional state."
