## **Editorial Review**

### **From the Back Cover**

The definitive self-teaching guide to learning mathematics--now fully up-to-date. Unlike other math books that make you start at page one and work your way up to the technique you need, this unique guide steers you right to your topic of interest, fully explains it within its own context, and then shows you how to use it with real-world examples.

The unique jump-in-anywhere format and conversational tone of Stan Gibilisco's and Norman Crowhurst's *Mastering Technical Mathematics* makes this book--now thoroughly updated--a must for just about any technical professional. It's also the perfect instruction manual for independent students who want to structure their own learning.

With this one-of-a-kind, case study-filled guide to all kinds of math used in technical fields, you can--find the technique you need quickly, along with easy-to-understand examples showing how it's used; skip from topic to topic in any order, and learn in your own style at your own pace; master technical math painlessly with this guide's easy-going style and example-packed format; discover new applications in logic, digital systems, and numbering systems; test yourself with quiz questions in each chapter (and complete worked-out solutions). If you work in a field where math comes with the territory, don't miss the guide that puts a multitude of math solutions right at your fingertips: *Mastering Technical Mathematics*, Second Edition.

### **About the Author**

Stan Gibilisco is a professional technical writer who specializes in books on electronics and science topics. He is the author of *The Encyclopedia of Electronics*, *The McGraw-Hill Encyclopedia of Personal Computing*, and *The Illustrated Dictionary of Electronics*, as well as over 20 other technical books. His published works have won numerous awards. *The Encyclopedia of Electronics* was chosen a "Best Reference Book of the 1980s" by the American Library Association, which also named his *McGraw-Hill Encyclopedia of Personal Computing* a "Best Reference of 1996."

## **Users Review**

### **From reader reviews:**

#### **Kathleen King:**
