## Editorial Review

### About the Author

**Marge Lial** has always been interested in math; it was her favorite subject in the first grade! Marge's intense desire to educate both her students and herself has inspired the writing of numerous best-selling textbooks. Marge, who received Bachelor's and Master's degrees from California State University at Sacramento, is now affiliated with American River College. Marge is an avid reader and traveler. Her travel experiences often find their way into her books as applications, exercise sets, and feature sets. She is particularly interested in archeology. Trips to various digs and ruin sites have produced some fascinating problems for her textbooks involving such topics as the building of Mayan pyramids and the acoustics of ancient ball courts in the Yucatan.

When **John Hornsby** enrolled as an undergraduate at Louisiana State University, he was uncertain whether he wanted to study mathematics education or journalism. His ultimate decision was to become a teacher, but after twenty-five years of teaching at the high school and university levels and fifteen years of writing mathematics textbooks, both of his goals have been realized. His love for both teaching and for mathematics is evident in his passion for working with students and fellow teachers as well. His specific professional interests are recreational mathematics, mathematics history, and incorporating graphing calculators into the curriculum. John's personal life is busy as he devotes time to his family (wife Gwen, and sons Chris, Jack, and Josh). He has been a rabid baseball fan all of his life. John's other hobbies include numismatics (the study of coins) and record collecting. He loves the music of the 1960s and has an extensive collection of the recorded works of Frankie Valli and the Four Seasons.

**David Schneider** has taught mathematics at universities for over 34 years and has authored 36 books. He has an undergraduate degree in mathematics from Oberlin College and a PhD in mathematics from MIT. During most of his professional career, he was on the faculty of the University of Maryland--College Park. His hobbies include travel, dancing, bicycling, and hiking.

**Callie Daniels** has always had a passion for learning mathematics and brings that passion into the classroom with her students. She attended the University of the Ozarks on an athletic scholarship, playing both basketball and tennis. While there, she earned a bachelor's degree in Secondary Mathematics Education as well as the NAIA Academic All-American Award. She has two master's degrees: one in Applied Mathematics and Statistics from the University of Missouri-Rolla, the second in Adult Education from the University of Missouri- St. Louis. Her hobbies include watching her sons play sports, riding horses, fishing, shooting photographs, and playing guitar. Her professional interests include improving success in the community college mathematics sequence, using technology to enhance students' understanding of mathematics, and creating materials that support classroom teaching and student understanding.

## Users Review

### From reader reviews:

#### **Lisa Chaffee:**

As people who live in the modest era should be change about what going on or facts even knowledge to

make them keep up with the era and that is always change and move ahead. Some of you maybe may update themselves by looking at books. It is a good choice in your case but the problems coming to a person is you don't know what kind you should start with. This College Algebra and Trigonometry (5th Edition) is our recommendation so you keep up with the world. Why, because this book serves what you want and want in this era.

**Alberta Townsend:**

This College Algebra and Trigonometry (5th Edition) is great guide for you because the content that is full of information for you who else always deal with world and get to make decision every minute. This kind of book reveal it information accurately using great plan word or we can declare no rambling sentences within it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but hard core information with attractive delivering sentences. Having College Algebra and Trigonometry (5th Edition) in your hand like obtaining the world in your arm, facts in it is not ridiculous one. We can say that no reserve that offer you world with ten or fifteen small right but this reserve already do that. So , this is good reading book. Hey there Mr. and Mrs. active do you still doubt in which?

**Aaron Blue:**

You could spend your free time you just read this book this e-book. This College Algebra and Trigonometry (5th Edition) is simple to develop you can read it in the playground, in the beach, train as well as soon. If you did not get much space to bring often the printed book, you can buy typically the e-book. It is make you simpler to read it. You can save typically the book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

**Lillie Rose:**

Publication is one of source of information. We can add our know-how from it. Not only for students but in addition native or citizen need book to know the revise information of year to help year. As we know those textbooks have many advantages. Beside we add our knowledge, can also bring us to around the world. From the book College Algebra and Trigonometry (5th Edition) we can acquire more advantage. Don't one to be creative people? To become creative person must want to read a book. Just simply choose the best book that acceptable with your aim. Don't end up being doubt to change your life with this book College Algebra and Trigonometry (5th Edition). You can more inviting than now.
