Optics Demystified By Stan Gibilisco

An enlightening guide to optics

Are you in the dark when it comes to understanding the science of optics? Now there's a glimmer in the gloom! *Optics Demystified* brings this challenging topic into focus.

Written in an easy-to-follow format, this practical guide begins by covering the nature of light, the electromagnetic spectrum, reflection, refraction, and color dispersion. You'll move on to common optical devices and effects, lasers, and optical data transmission technology. Industrial, medical, and military applications are discussed, as are exotic optics such as holography. Detailed examples and concise explanations make it easy to understand the material, and end-of-chapter quizzes and a final exam help reinforce learning.

It's a no-brainer! You'll get:

- Explanations of the particle and wave theories
- Analysis of optical microscopes and telescopes
- Functional details of fiber optics
- A sampling of optical illusions
- A time-saving approach to performing better on an exam or at work

Simple enough for a beginner but challenging enough for an advanced student, *Optics Demystified* illuminates this vital physics topic.

Editorial Review

About the Author

Stan Gibilisco is an electronics engineer, researcher, and mathematician. He has authored or co-authored more than 50 books, including *Physics Demystified*, *Advanced Physics Demystified*, *Geometry Demystified*, *Statistics Demystified*, *Algebra Know-it-ALL*, *Calculus Know-it-ALL*, and many more.

Users Review

From reader reviews:

Amber Weitz:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite e-book and reading a publication. Beside you can solve your long lasting problem; you can add your knowledge by the book entitled Optics Demystified. Try to the actual book Optics Demystified as your good friend. It means that it can for being your friend when you feel alone and beside that of course make you smarter than in the past. Yeah, it is very fortuned for yourself. The book makes you considerably more confidence because you can know everything by the book. So , let us make new experience in addition to knowledge with this book.

Barbara Davis:

Have you spare time for just a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a go walking, shopping, or went to the Mall. How about open as well as read a book entitled Optics Demystified? Maybe it is to get best activity for you. You know beside you can spend your time with the favorite's book, you can better than before. Do you agree with its opinion or you have various other opinion?

Christine Brooks:

Do you have something that you want such as book? The e-book lovers usually prefer to opt for book like comic, limited story and the biggest the first is novel. Now, why not hoping Optics Demystified that give your entertainment preference will be satisfied through reading this book. Reading routine all over the world can be said as the way for people to know world a great deal better then how they react to the world. It can't be claimed constantly that reading addiction only for the geeky man or woman but for all of you who wants to always be success person. So , for all of you who want to start reading as your good habit, you are able to pick Optics Demystified become your current starter.

David Auman:

Your reading sixth sense will not betray you, why because this Optics Demystified reserve written by well-

known writer who really knows well how to make book that may be understand by anyone who also read the book. Written within good manner for you, dripping every ideas and producing skill only for eliminate your hunger then you still skepticism Optics Demystified as good book not just by the cover but also by the content. This is one publication that can break don't determine book by its deal with, so do you still needing yet another sixth sense to pick this specific!? Oh come on your looking at sixth sense already said so why you have to listening to yet another sixth sense.
