Practical Astronomer By Brian Jones

From planets and asteroids to the expanding universe, *The Practical Astronomer* is the perfect introduction to the fascinating world of astronomy.

It not only shows you *what* to look for throughout the whole yearly cycle of the sky, but exactly *how* to go about looking for it. Based on the latest findings in astronomical research, the book explains the practical keys to successful observation -- whether you are observing with the naked eye, binoculars, or a telescope.

This unique and indispensable guide will help you make the most of this fascinating hobby. Contents include:

- The Solar System
- The Milky Way
- The Expanding Universe
- Binoculars and Telescopes
- Making a Telescope
- Astrophotography
- Drawing at the Telescope
- Equipping an Amateur Observatory
- Guide to the Moon
- Observing the Sun
- Planets and Asteroids
- Gas Giants, Comets, Meteors and Meteorites
- Artificial Satellites

With more than 275 photographs and diagrams, including month-by-month sky-search charts.

Brian Jones, the author, is a dedicated amateur observer who has written widely on sky-watching and space exploration. He is also the author of *The Guide to Astronomy* and a regular contributor to *Popular Astronomy*, newspapers, and other periodicals.

Users Review

From reader reviews:

Lenora Hungate:

With other case, little individuals like to read book Practical Astronomer. You can choose the best book if you'd prefer reading a book. Provided that we know about how is important some sort of book Practical Astronomer. You can add information and of course you can around the world by a book. Absolutely right, because from book you can know everything! From your country right up until foreign or abroad you will end up known. About simple factor until wonderful thing you can know that. In this era, we can open a book or even searching by internet product. It is called e-book. You can use it when you feel uninterested to go to the library. Let's go through.

Donna Casey:

Reading a reserve can be one of a lot of pastime that everyone in the world adores. Do you like reading book and so. There are a lot of reasons why people like it. First reading a reserve will give you a lot of new data. When you read a guide you will get new information since book is one of several ways to share the information or their idea. Second, reading a book will make you actually more imaginative. When you studying a book especially fiction book the author will bring that you imagine the story how the personas do it anything. Third, you are able to share your knowledge to other individuals. When you read this Practical Astronomer, it is possible to tells your family, friends and also soon about yours book. Your knowledge can inspire average, make them reading a book.

Frank Monroe:

The reason? Because this Practical Astronomer is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will zap you with the secret that inside. Reading this book beside it was fantastic author who else write the book in such amazing way makes the content on the inside easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you for not hesitating having this nowadays or you going to regret it. This unique book will give you a lot of rewards than the other book get such as help improving your proficiency and your critical thinking approach. So , still want to hold up having that book? If I were you I will go to the publication store hurriedly.

Bernice Martinez:

Playing with family in the park, coming to see the sea world or hanging out with close friends is thing that usually you could have done when you have spare time, and then why you don't try issue that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Practical Astronomer, you could enjoy both. It is good combination right, you still want to miss it? What kind of hangout type is it? Oh come on its mind hangout guys. What? Still don't get it, oh come on its identified as reading friends.
