**Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro)** By Nivaldo J. Tro

**NOTE:** Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

#### Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

*For two-semester courses in General Chemistry  
This package includes MasteringChemistry®.*

#### A relevant, problem-solving approach to chemistry

The **Third Edition** of *Principles of Chemistry: A Molecular Approach* presents core concepts without sacrificing rigor, enabling students to make connections between chemistry and their lives or intended careers. Drawing upon his classroom experience as an award-winning educator, Professor Tro extends chemistry to the student's world by capturing student attention with examples of everyday processes and a captivating writing style. Throughout this student-friendly text, chemistry is presented visually through multi-level images that help students see the connections between the world around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic).

The **Third Edition** improves upon the hallmark features of the text and adds new

assets—Self Assessment Quizzes, Interactive Worked Examples, and Key Concept Videos—creating the best learning resource available for general chemistry students.

#### **Personalize Learning with MasteringChemistry**

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

## **Editorial Review**

### **About the Author**

Nivaldo Tro is a Professor of Chemistry at Westmont College in Santa Barbara, California, where he has been a faculty member since 1990. He received his Ph.D. in chemistry from Stanford University for work on developing and using optical techniques to study the adsorption and desorption of molecules to and from surfaces in ultrahigh vacuum. He then went on to the University of California at Berkeley, where he did postdoctoral research on ultrafast reaction dynamics in solution. Since coming to Westmont, Professor Tro has been awarded grants from the American Chemical Society Petroleum Research Fund, from Research Corporation, and from the National Science Foundation to study the dynamics of various processes occurring in thin adlayer films adsorbed on dielectric surfaces. He has been honored as Westmont's outstanding teacher of the year three times and has also received the college's outstanding researcher of the year award. Professor Tro lives in Santa Barbara with his wife, Ann, and their four children, Michael, Ali, Kyle, and Kaden. In his leisure time, Professor Tro enjoys surfing, mountain biking, being outdoors with his family, and reading good books to his children.

## **Users Review**

### **From reader reviews:**

#### **Ann Goddard:**

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what the ones you have problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have spare time? What did you do? Everybody has many questions above. They must answer that question due to the fact just their can do that will. It said that about guide. Book is familiar in each person. Yes, it is proper. Because start from on jardín de infancia until university need this particular Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro) to read.

#### **Becky Duncan:**

As people who live in typically the modest era should be revise about what going on or information even knowledge to make these people keep up with the era that is always change and progress. Some of you maybe can update themselves by studying books. It is a good choice for you personally but the problems coming to anyone is you don't know what type you should start with. This Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

**Susan Brooks:**

Hey guys, do you want to find a new book to read? May be the book with the name *Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro)* suitable to you? Often the book was written by popular writer in this era. The particular book untitled *Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro)* is the main of several books which everyone read now. This particular book was inspired lots of people in the world. When you read this book you will enter the new way of measuring that you ever know prior to. The author explained their concept in the simple way, therefore all of people can easily to recognise the core of this book. This book will give you a wide range of information about this world now. So that you can see the represented of the world in this particular book.

**Brant Castillo:**

A lot of people always spent their very own free time to vacation or go to the outside with them loved ones or their friend. Do you know? Many a lot of people spent that they free time just watching TV, as well as playing video games all day long. If you want to try to find a new activity here is look different you can read a book. It is really fun to suit your needs. If you enjoy the book that you read you can spent all day every day to reading a publication. The book *Principles of Chemistry: A Molecular Approach Plus MasteringChemistry with eText -- Access Card Package (3rd Edition) (New Chemistry Titles from Niva Tro)* it is quite good to read. There are a lot of people that recommended this book. We were holding enjoying reading this book. In the event you did not have enough space bringing this book you can buy the e-book. You can more simply to read this book through your smart phone. The price is not very costly but this book features high quality.
