**Space, Time and Resurrection** By Thomas F. Torrance

The sequel to *Space, Time and Incarnation*. Professor Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one, Jesus; and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did. The Resurrection is thus taken realistically, and treated as of the same nature, in the integration of physical and spiritual existence, as the death of Christ. All this is elucidated in the context of modern scientific thought, in such a way as to show that far from being frightened by modern science into a compromise of the NT message of the Resurrection of Jesus Christ in body, it actually allows us to take its full measure.
