From School Library Journal

Grade 1-4-In this 20th book about Junie B., Parks hits on the universal theme of losing one's first tooth. As the first person in her class to have this experience, Junie B. worries that she'll look funny, but her teacher assures her that it is a momentous event in her life, and that she'll look more grown up when the new one comes in. This, of course, delights the child. However, she is convinced that the tooth fairy is really a witch. After all, what would a tooth fairy do with all of those teeth? This is an ideal read-aloud to first graders and a choice that they will enjoy reading independently as they move into chapter books. Humorous black-and-white drawings show Junie B. as she interacts with her classmates and family.

Gr. 2-4. As the story begins, Junie B. struggles with the discomfort of a loose top tooth and the prospect of looking different once it is gone. When the tooth falls out, however, these issues pale beside the question of whether to put it under her pillow, since the story of the tooth fairy just doesn't make *sense* to her. After all, what does the tooth fairy do with all those teeth? Armed with a scientist's drive to know the truth and a six-year-old's knowledge base and logic, Junie B. finds her own answer to the question. Occasionally the humor seems aimed at adults, but children just a little older than Junie B. will definitely find this beginning chapter book amusing and occasionally laugh-out-loud funny. With its vivid portrayal of a first-grade classroom and a child's point of view, this is a welcome addition to a popular series. The illustrations were not available for preview. *Carolyn Phelan*
