### Editorial Review

#### Review

From the reviews of the second edition:

"It covers the field of paediatric ophthalmology in a systematic and encyclopaedic fashion. ... In summary, this text gives an excellent account of paediatric ophthalmology and strabismus . . . As a reference text it is strongly recommended for inclusion in the libraries of paediatric hospitals." (JE Elder, Journal of Paediatrics and Child Health, Vol. 39 (9), 2003)

#### About the Author

Kenneth W. Wright, M.D. currently holds an appointment at Head of the Pediatric Ophthalmology and Strabismus Department at the Cleveland Clinic in Ohio. He formerly held an appointment as Associate Professor of Ophthalmology and Pediatrics at the University of Southern California School of Medicine, which included teaching responsibilities with ophthalmology residents at the USC Doheny Eye Institute and Children's Hospital of Los Angeles with pediatric residents. Among professional associations, Dr. Wright is an active member of the American Academy of Ophthalmology, American Research Vision Organization, and the American Association of Pediatric and Ophthalmic Surgeons, as well as in General Pediatrics with the American Academy of Pediatrics. His credentials as a leader in Pediatric Ophthalmology and Strabismus are well founded as he chairs the Membership, Credentials, and Nominating committees of the American Association of Pediatric Ophthalmology. His most well known publications include the series which he co-edited with Stephen Ryan (author of our Retina book) entitled Color Atlas of Ophthalmology (8 volume set, each volume 200 pages, 125 illustrations, 71 of which are color, J.B. Lippincott, published 1991) and the definitive reference, Pediatric Ophthalmology and Strabismus, published by Mosby in 1995.

### Users Review

#### From reader reviews:

##### **Alice Hill:**

Reading a book can be one of a lot of task that everyone in the world enjoys. Do you like reading book and so. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new information. When you read a guide you will get new information mainly because book is one of several ways to share the information or maybe their idea. Second, examining a book will make you more imaginative. When you examining a book especially fiction book the author will bring that you imagine the story how the characters do it anything. Third, you are able to share your knowledge to other people. When you read this Pediatric Ophthalmology and Strabismus, you may tell your family, friends and soon about yours reserve. Your knowledge can inspire the others, make them reading a publication.

**David Eaton:**

The book untitled Pediatric Ophthalmology and Strabismus is the reserve that recommended to you to study. You can see the quality of the guide content that will be shown to an individual. The language that writer use to explained their way of doing something is easily to understand. The writer was did a lot of exploration when write the book, therefore the information that they share for you is absolutely accurate. You also could possibly get the e-book of Pediatric Ophthalmology and Strabismus from the publisher to make you much more enjoy free time.

**James Rutledge:**

The publication with title Pediatric Ophthalmology and Strabismus contains a lot of information that you can understand it. You can get a lot of gain after read this book. This particular book exist new knowledge the information that exist in this book represented the condition of the world today. That is important to you to know how the improvement of the world. That book will bring you throughout new era of the syndication. You can read the e-book with your smart phone, so you can read this anywhere you want.

**Angel Sullivan:**

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library in order to make summary for some e-book, they are complained. Just very little students that has reading's heart or real their pastime. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring and can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Pediatric Ophthalmology and Strabismus can make you feel more interested to read.
