Practicing Utopia: An Intellectual History of the New Town Movement By Rosemary Wakeman

The typical town springs up around a natural resource—a river, an ocean, an exceptionally deep harbor—or in proximity to a larger, already thriving town. Not so with “new towns,” which are created by decree rather than out of necessity and are often intended to break from the tendencies of past development. New towns aren’t a new thing—ancient Phoenicians named their colonies *Qart Hadasht*, or New City—but these utopian developments saw a resurgence in the twentieth century.

In *Practicing Utopia*, Rosemary Wakeman gives us a sweeping view of the new town movement as a global phenomenon. From Tapiola in Finland to Islamabad in Pakistan, Cergy-Pontoise in France to Irvine in California, Wakeman unspools a masterly account of the golden age of new towns, exploring their utopian qualities and investigating what these towns can tell us about contemporary modernization and urban planning. She presents the new town movement as something truly global, defying a Cold War East-West dichotomy or the north-south polarization of rich and poor countries. Wherever these new towns were located, whatever their size, whether famous or forgotten, they shared a utopian lineage and conception that, in each case, reveals how residents and planners imagined their ideal urban future.

Editorial Review

Review

“A landmark history.”
(*Times Higher Education*)

“In her lively and nuanced account of the brief passion for ‘new towns,’ she demonstrates how two decades of town planning turned wishful thinking into pristine, uncompromising urban developments in the face of Cold War maneuvering, political instability, and vexed economics.”
(*Times Literary Supplement*)

“*Practicing Utopia* is an ambitious and masterly historical synthesis, erudite and lucid, written in a lively and engaging style. Drawing on primary sources from around the globe as well as recent architectural and planning history, the book is an original and syncretic intellectual history of the New Town movement.”
(*June Williamson, City College of New York*)

“A must-read for anyone interested in the intellectual underpinnings of the New Towns movement. *Practicing Utopia* is a convincing analysis of the intellectual background of one of the twentieth century’s most influential city models. This is a fascinating, elegantly written book.”
(*Florian Urban, Mackintosh School of Architecture, Glasgow School of Art*)

“After the Second World War, a new town movement projected urban utopianism across the globe. Impressive in its scope and fulfilling in its details, *Practicing Utopia* is a fascinating survey of this moment in worldwide urban development. The impulse to begin cities anew lives and no urbanist true to the label should avoid Wakeman’s book.”
(*Robert Beauregard, Columbia University*)

About the Author

Rosemary Wakeman is professor of history and director of the Urban Studies Program at Fordham University. She is the author of *The Heroic City: Paris 1945–1958*, also published by the University of Chicago Press. She lives in New York.
