Applied Sociology: Terms, Topics, Tools, and Tasks By Stephen F. Steele, Jammie Price

This concise, user-friendly book by award-winning sociology professor Stephen F. Steele of Anne Arundel Community College and Jammie Price of the University of North Carolina Wilmington addresses a common question many introductory sociology students: "What can I do with sociology?" The book introduces students to sociology as an active and relevant way to understand human social interaction by offering a clear, direct linkage between sociology and its practical use. It focuses on the core concepts in sociology (terms and topics), contemporary and practical skills used by sociologists to investigate these concepts (tools), and then provides concrete exercises for learning and applying these skills (tasks). The book also includes brief sections on using sociology to make a difference in the community and on developing a career in sociology. Applied sociology is an ideal supplement to traditional sociology texts to add an applied component to your course.

Editorial Review

About the Author

Steve Steele, awarded the American Sociological Association Section on Sociological Practice William Foote Whyte Career Award "for individuals who have made notable contributions to sociological practice," is a professor and active applied sociologist at Anne Arundel Community College in Maryland. He has written many articles pertaining to applied sociology and authored two other books, "Solution-Centered Sociology: Addressing Problems Through Applied Sociology" by Stephen F. Steele, Annemarie Scarisbrick-Hauser, William J. Hauser, and "Directions in Applied Sociology", edited by Steve Steele and Joyce Iutcovich.

Jammie Price is an Assistant Professor in the Department of Sociology and Criminal Justice at the University of North Carolina at Wilmington. She is also the Coordinator of the Applied Sociology Internship program there. She received her Masters at East Carolina University and her Ph.D. at North Carolina State University. She has taught at East Carolina University and North Carolina State, and she has published a monograph, "Navigating Differences: Friendships between Gay and Straight Men" (Haworth Press, 1999).

Users Review

From reader reviews:

Joan Henderson:

What do you regarding book? It is not important with you? Or just adding material when you really need something to explain what you problem? How about your extra time? Or are you busy man? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have extra time? What did you do? Everybody has many questions above. They must answer that question simply because just their can do that will. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on pre-school until university need this kind of Applied Sociology: Terms, Topics, Tools, and Tasks to read.

Melissa Conner:

Information is provisions for anyone to get better life, information presently can get by anyone in everywhere. The information can be a know-how or any news even a huge concern. What people must be consider when those information which is inside former life are difficult to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you find the unstable resource then you have it as your main information you will see huge disadvantage for you. All of those possibilities will not happen with you if you take Applied Sociology: Terms, Topics, Tools, and Tasks as your daily resource information.
