**Lectures on Ordinary Differential Equations** By Witold Hurewicz

A Rigorous And Lively Introduction To The Theory Of Ordinary Differential Equations. The Approach Is Essentially Geometric And Extremely Appealing To The Intuition. The Careful And Lucid Way In Which This Book Is Written Puts It Well Within The Grasp Of The Senior Mathematics Student.

### Editorial Review

#### From the Back Cover

Hailed by *The American Mathematical Monthly* as "a rigorous and lively introduction," this text explores a topic of perennial interest in mathematics. The author, a distinguished mathematician and formulator of the Hurewicz theorem, presents a clear and lucid treatment that emphasizes geometric methods. Topics include first-order scalar and vector equations, basic properties of linear vector equations, and two-dimensional nonlinear autonomous systems.

Suitable for senior mathematics students, the text begins with an examination of differential equations of the first order in one unknown function. Subsequent chapters address systems of differential equations, linear systems of differential equations, singularities of an autonomous system, and solutions of an autonomous system in the large.

Dover (2014) republication of the edition originally published by MIT Press, Cambridge, Massachusetts, 1958.

#### About the Author

Witold Hurewicz (1904–56) was Professor of Mathematics at MIT for more than 20 years.

### Users Review

#### From reader reviews:

##### **Erin Chretien:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite e-book and reading a publication. Beside you can solve your short lived problem; you can add your knowledge by the reserve entitled Lectures on Ordinary Differential Equations. Try to stumble through book Lectures on Ordinary Differential Equations as your good friend. It means that it can for being your friend when you experience alone and beside that of course make you smarter than ever. Yeah, it is very fortuned for you. The book makes you considerably more confidence because you can know everything by the book. So , let me make new experience as well as knowledge with this book.

##### **Ruth Aguilar:**

Playing with family in a very park, coming to see the sea world or hanging out with pals is thing that usually you might have done when you have spare time, in that case why you don't try issue that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Lectures on Ordinary Differential Equations, you can enjoy both. It is good combination right, you still need to miss it? What kind of hang type is it? Oh can happen its mind hangout men. What? Still don't buy it, oh come on its referred to as reading friends.

**Joshua McIntosh:**

A lot of book has printed but it takes a different approach. You can get it by internet on social media. You can choose the top book for you, science, comedy, novel, or whatever through searching from it. It is identified as of book Lectures on Ordinary Differential Equations. You can contribute your knowledge by it. Without leaving the printed book, it can add your knowledge and make a person happier to read. It is most important that, you must aware about book. It can bring you from one place to other place.

**Jason Buckley:**

What is your hobby? Have you heard this question when you got scholars? We believe that that question was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person similar to reading or as reading become their hobby. You have to know that reading is very important and book as to be the issue. Book is important thing to increase you knowledge, except your teacher or lecturer. You discover good news or update regarding something by book. Different categories of books that can you choose to adopt be your object. One of them is this Lectures on Ordinary Differential Equations.
