### Red Midnight By Ben Mikaelson

When guerrilla soldiers strike Santiago's village, they shoot at everyone in their path. Dos Vías is on fire, and the night glows red. "Take the *cayuco* and sail to the United States of America. Now go!" Santiago's uncle Ramos tells him, and Santiago, twelve, and his four-year-old sister, Angelina, flee.

With a map, a machete, and very little food, Santiago and Angelina set sail in their uncle Ramos's sea kayak, built for just such an escape, but not for a sailor who is only a boy. Santiago heads for the United States on a voyage that will take them through narrow channels guarded by soldiers, shark, infested waters, and days of painful heat and raging storms. Santiago knows that he and Angelina probably will die trying to make the voyage, but they certainly will die at the hands of rebels or government soldiers if they do not try.

In this tale of courage, survival, and triumph, Ben Mikaelson introduces readers to a danger and fear that is far too real for many children, and he reminds us of the responsibility and power that the world's richest nation bears to help end it.

### Editorial Review

From School Library Journal

Grade 5-9-When soldiers burn his Guatemalan village and kill his family, 12-year-old Santiago escapes with his 4-year-old sister, Angelina. Following the instructions of his dying uncle, he makes his way to Lake Izabal, where he takes his uncle's small sailing canoe and begins a terrifying journey north and across the Gulf of Mexico to Florida. The siblings face starvation and dehydration; lack of sleep; strong sun, wind, and waves; and their own fears and sorrows to win their game of Staying Alive. The present-tense narrative suggests the speech of someone whose first language is not English, and Santiago's first-person account makes the adventure even more immediate. The opening scene is memorable, as the burning of the village turns the night sky red. However, the necessary flashback to explain how a mountain boy learned rudimentary sailing and the almost unbelievable details of the children's trip between their village and their uncle's home give readers pause, rather than pulling them into the suspense of the story. At times, the anger in the author's message almost overwhelms the action. "The rich have no conscience," their uncle's friend says. The first Americans they encounter call them "stinking boat people" and tell them to go away from their private beach club. In an afterword, the author explains that the soldiers who massacred villagers were armed by the U.S. government as part of our fight against communism. Thus, we share the blame for such atrocities. In spite of the heavy-handed message, readers who persevere through the first third of the book will be rewarded with a terrific survival story.
